Phase One - SOLD OUT

Phase One, consisting of 111 lots, has sold out.

Phase Two

The proposed Phase Two will consist of 56 one-hectare lots (2.47 acres). It is our intention to develop a portion of Phase Two in 2010. The prices of these first 11 lots will start at \$150,000.00, plus HST. The zoning will be for single-family dwellings, which also allows for construction of a guest cottage and a garage / storage facility. Lots will go on sale once preliminary approval for the subdivision is obtained, and a disclosure statement is filed.

Interested parties may contact Roger Webber at (250) 851-0100 or by email at roger@webberweiser.com, and ask to be placed on a waiting list. Potential purchasers will be contacted once the disclosure statement is completed, and the lots are available to purchase.
